About SmartO

At SmartO Systems our mission is to stand with every institute, and make them capable enough to bring quality in their teaching. Our aim is to educate every student in a direction that leads to students' success.

With the strong vision of providing an Institute & a student a distinguished identity, we have developed a process having various steps that leads to success. Our Visual Training System, Online Examination, Live Training, Test Series, Software Based Learning & Certification are major steps in this process.

The purpose of Smarto Systems is to help every institution that dream big. Whatever courses you are running, whatever franchise you have, whatever certification you are offering, irrespective of any bias we are with you. Smarto Systems believes that every educational institute in India should be smart enough to deliver quality.

Our vast network covers more than 1000 centers across India. Students get access to well curated content for various courses from a variety of categories which includes but are not limited to IT, Design, Spoken Languages, Accounting, Modeling, Life Sciences and much more.

Certificate In Yoga Instructor

Raghav Foundation is a registered Trust (NGO) and is authorized to provide education of Paramedical Courses, and to organize Paramedical Certificate Courses of duration 3 months, 6 months & 1 year duration and others.

Raghav Foundation is partnered with Smarto Systems for Infrastructure Sharing and Online Examination System.

Raghav Foundation has authorized Smarto Systems to start Practice Centers and Examination Centers on behalf of it.

CERTIFICATE COURSES	ELIGIBILITY	DURATION
Certificate in Bed Side Assistant	10TH	3 MONTHS
Certificate in General Duty Assistant	10TH	3 MONTHS
Certificate in Medical Laboratory Technician	10TH	1 YEAR
Certificate in Emergency Medical Technician	12TH	6 MONTHS
Certificate in Medical Laboratory Technician	10TH	1 YEAR
Certificate in Physiotherapy Technician	10TH	1 YEAR

The courseware is covered by Richa Ahuja who herself is a gold medalist as a yoga instructor and is currently teaching yoga abroad accross multiple countries. The lectures covers all the yoga poses that are in the exam curriculum which includes the following:
i. Saravangasana (shoulderstand)
ii. Halasana (plough)
iii. Matsyasana (fish)
iv. Paschimottanasana (sitting forward bend)
v. Bhujangasana (cobra)
vi. Salabhasana (locust)
vii. Dhanurasana (bow)
viii. Ardh matsyendrasana (half spinal twist)
ix. Kakasana or bakasana (crow)
x. Padahasthasana (standing forward bend)
xi. Trikonasana (triangle)

She also covers the theory where she talks about common exam questions and how to clear the exam.

The course is mandatory for all yoga instructors and have vacancies in Govt. and Private sector. You can also get certification of QCI exam from Ayush Ministry after preparing from this course along with our certification.

using Photoshop.

Learning Metholodgy

Software Based Trainings

Learning with specialized interactive software rather than just videos can boost the learning process indefinately.

Wonder English is a software upon using which, English speaking, writing and pronouncing can be learned at the learner's own pace. A computer headphone as well as microphone is mandatory for running this Software. It contains hundreds of listening, speaking as well as writing exercises. The software feels like a Game and without any aid from an English speaking trainer, it helps you to speak perfect English.
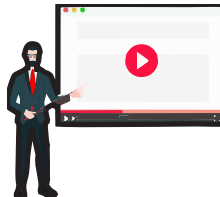

HIGHLY RECOMMENDED

Visual Training System

VTS means Visual Training System, which means training through Recorded Videos. You need SmartO One Player to play the trainings. One Player is available for Android and Windows. One Player requires Licence to play the VTS trainings. One Licence is valid for a single computer or mobile.

Live Trainings

If you would prefer an instructor in front of you who would address your queries while they teach you, our live training meetings would provide you an excellent learning edge. All you need is an internet connection and device mobile or PC and you could attend live training from anywhere and ask questions and clear your doubts.

Test Series

Our test series modules consist of large set of questions for Exam preparations. The MCQ based exams are excellent to prepeare for Govt. Job exams and contains wide varity of MCQ based topics like aptitude, General Knowledge, Maths, Grammar etc.

Python programming

Python is the language of the new programming era with very flexible syntax, better code readability, gigantic pre-built libraby support, wide application and upport most major platforms like linux, windows, web applications, embedded systems etc.

Python gets your task done in fewer lines than other languages and is ideal for statical data analysis, machine learning, web server hosting using it's extended frameworks.

Python have been in existence since early 1990's and thus is 30 years old and it's userbase and community have never stopped growing. Python is undeniably a bright name in industry thanks to it's wide applications like image recognition (OpenCV), Stats and graphs (Matplot), Data Training/Artificial Intelligence (TensorFLow).
